Choosing your anticoagulation monitoring service provider

Updated 1 July 2012

NHS County Durham and Darlington has recently approved some existing and new organisations to deliver anticoagulation monitoring.

The places listed in this leaflet offer a monitoring service to strictly specified standards of care on behalf of the NHS.

If the place you already receive your treatment from is listed here, you can continue to get your treatment with them – alternatively, you can choose another place.

However, if the place that you currently receive your treatment is not listed here, then you must choose one of the approved places listed on this leaflet.

CHOOSING WHERE TO GET YOUR TREATMENT

You will have a number of requirements to base your choice of where you get your treatment – from the times and days they are able to offer you an appointment, to the location of their clinics.

Regardless of where you choose, you should receive a prompt service that will ensure you get a high standard of care.

WHO SHOULD I SPEAK TO IF I AM UNHAPPY?

If you have any difficulty in referring yourself to one of these places, or if you are unhappy with any aspect of your NHS care, please get in touch with the Patient Advice and Liaison Service (PALS) on **0800 195 7998**
